For my friends and family and parishioners over my some 50 years in ministry I just wanted to say thank you for all you love and support over the years. I have been ill for some time and today it finally took me home to be with God. I've had a great childhood in the Midwest with my brother John. Being a PK of a PK of a PK, we didn't get away with too much but we were loved and now get to hang out more. My years in Houston and Waller serving all over this area were both very challenging and very rewarding. I have friends from each stop that I maintained until the very end. I tried very hard to be a compassionate and empathetic pastor and tell the people I loved just how much they meant (against my Norwegian roots). My son plans a celebration after the new year in Clear Lake at IHOP. Your all invited so please come. Stay tuned to this page for details.

May the Lord bless you and keep you
May the Lord make shine his face and be gracious to you
May the Lord look up you with favour and grant you peace.
and one last time...AMEN.
