Notes from graduates:

"The 80th birthday party today was so much fun seeing everyone, catching up and thanks to Robert Wilson and others who helped contribute to the fun, food contributions and entertainment. We really do have the best class in all the world!" - Bev Murphy Wells

"Hi:
Last Friday, Melody's doctor reviewed her stress test and told her she flunked and to get the heart catheter done asap. Monday, they had a Tuesday morning come up-- so we were there at 5:30. By then I had forgotten about the reunion.

Melody's fine. Some blockage fixed, and a stent.

We missed seeing you 40 some-odd folks who have now reached upper-middle-age, like me."

Mickey Lavy

“While I’m not up for the trip from Fairview to Waco today, I wish all who attend a great experience. Feel free to share this email with the group, and my email address.

Would love to know where everyone is at this stage of life.”
