

**In Memory of David Walsworth**  
**October 18, 1942 - December 20, 2021**

David's son, Tim, shared this information with me:

"My Dad would have turned 83 last week! We miss him terribly, but he was suffering with health stuff towards the end.

David was a father to three kids and married to Sharon for 50+ years. He worked as a civil servant for the US Air Force at Kelly Air Force Base in San Antonio, TX for his entire career in logistics. He retired when that base closed in the late 1990's. He loved his job and was really good at the logistics part of being sure the planes and people stationed at that base were ready to respond to any incident around the world at a moment's notice. I recall as a kid he got us out on the tarmac when the space shuttle landed at Kelly AFB for refueling as it was traveling back to Florida on the top of jumbo airliner.

After he left Kelly AFB, he worked for a bit in the Texas Tourism office. He was always very active in his church, First Baptist in San Antonio. His faith was very important to him.

He and Sharon moved to Georgia to be closer to my sister as they got older. My sister took wonderful care of Mom and Dad while they were there and helped them to find a good place to stay that could meet their needs. David has tons of friends; he always made friends wherever he went and was happy and smiling all the time. He loved the Dallas Cowboys and the San Antonio Spurs and invested tons of time with my sister in sports when we were younger.

Sharon passed away recently as well, as my other sister Kelli. So it's just Jennifer and I today to carry on our family legacy."
